

Fund-an-Athlete
\$250

EVERYONE DESERVES A CHANCE TO PLAY!

The ***Junior Adaptive Sports Camp*** was created for children ages 4-18 with physical disabilities to help cultivate a love for sports.

At camp, the athletes work with committed volunteers and sports counselors who share a passion for adaptive sports, while learning the fundamentals of sports such as wheelchair basketball, wheelchair tennis, archery, swimming, hand cycling, water tubing, wheelchair soccer, rugby and much more.

By funding an athlete, you give physically disabled youth the amazing opportunity to attend this weeklong camp. For just \$250, you can help them to become part of a team and open up a whole new world of possibilities in sports! Athletes develop important skills to help them stay active and healthy, develop positive self-esteem, leadership, independence and camp helps them establish a desire for life long activity as well as lifelong friendships!

Please give a child with a physical disability the same opportunity to play the sports **THEY** love and for some, have never even tried because they didn't think they could. Give the gift of sports this summer!
